Help us provide a better life for donkeys

Safe Haven
for Donkeys

About Safe Haven

Safe Haven for Donkeys was set up in 2000 to help the thousands of donkeys facing overwork and cruelty in Israel and the Palestinian Territories every day.

Today our Sanctuary in Israel is providing life-long care to hundreds of unwanted and abused donkeys of all ages, but the charity's work does not stop at the sanctuary gates.

Many working animals each month are helped by our mobile clinics. We also have a permanent clinic in the Palestinian city of Nablus.

Common injuries such as those from poor harnessing, overgrown hooves and bad teeth are easily treatable and go a long way in improving the lives of the animals who work so hard for so little.

Advice and education are key parts of Safe Haven's work with the owners and their children. Through our dedication and gentle approach the team has made many friends and are treated with trust and respect.

Please help is to continue our vital work looking after the residents of Safe Haven and reaching out to those donkeys pulling carts, carrying loads or abandoned when too old or injured to work.

Donkey stories

Dusty's Story

Dusty was found abandoned in Qalqilya in October 2013 when he was only 4 weeks old, probably because his owner felt that he was hindering the mother donkey from working. When brought to the sanctuary he spent the first few days 'calling' for his mother but soon settled down under our care.

Alby's Story

Alby was brought into Safe Haven's rest haven with torn ears, and allegedly nobody had any idea how it happened. The team knew that Alby would become a further target for abuse and so his owner allowed him to come to the sanctuary.

Burnie's Story

Burnie strayed on to someone's land and that person poured petrol over the poor donkey and set him on fire. Burnie suffered terrible injuries and although he has mostly recovered, he will always need special care.
